

A sample mix of Positive Seeds for a Better City.

Seeds of Love, Seeds of Goodwill, Seeds of Friendship, Seeds of Harmony, and Seeds for having a good day.

Greetings,

I do hope the enclosed samples from some of the different groups of Good Seeds from a web site are uplifting and inspiring for you. After spending a few minutes with the various messages, I hope that you will be feeling some upliftment, that you feel good inside, and a sense of having more connection with your higher nature, your love and inner peace, making your personal world a better space for you, this is the prime intention with most of the Seeds.

Primarily, the Seeds are for encouraging Waves of Love and Peace and Goodwill as the opposite to, and antidote medicine for fear and negativity, (causes of stress.) Most of our good Seeds are for being passed on to travel from person to person, like chains of positive upliftment. To get involved with making a better city, you can spread these Seeds to neighbours and friends, and print out whatever else you see will bring more benevolent and positive upliftment to your area. Some Seeds are more for personal use. Everything is free, there are no strings attached.

There are near to 200 Seeds. You can print out anything you feel right about. We even have some Seeds for building Children's Self Esteem. These are excellent for giving the younger ones a sense of confidence plus a healthy self image, which will reflect in many good positive ways as they go through school years, and into the challenges of teen years. Or, if someone you know is having a hard time, then there are a variety of Seeds for Upliftment and for Understanding. These are a mix of extracts and higher perspectives that can help put worldly concerns into a more positive light, and thus help to shift one to good feelings. The small Seeds of Harmony can go on fridge doors as silent reminders for choosing positive expressions for peace and harmony in the home.

When we have multiplied levels of loving compassion and goodwill in the air of cities and towns of the world, we will have permanent world peace with no need for any warsYES we can. To help causes that stir our compassion, we have Seeds for some more widely supported causes. We have Seeds for bringing more attention to the problems of eliminating poverty, starvation / hunger, saving our environments, child abuse /child soldiers, torture, animal cruelty, land mines, ending wars, plus global growth of national happiness. Fostering more awareness of our higher nature and allowing more of our higher nature aspirations / expressions of love, are the reasons and motivation behind the creation of all of our Seeds. Loving compassion of our higher nature solves all problems.

Thank you for reading this and for passing on our Seeds as you choose toyou will make a difference because every loving, peaceful or uplifting vibration internally felt does go out into our atmosphere to then become beneficial healing for all who breathe that very air. As a personal hobby activity, we are non affiliated, everything is free and we do not seek any donations. We invite you to come visit us and see what might bring a little more love and peace and good feelings into your day, or some positive upliftment to those you care about.....go to; www.goodwillpeople.net
