May our children inherit a Friendly Peaceful City.

Greetings,

This message is from me to you. You will not know me, I may live close bye, or a distance from you. I am happy to stay anonymous. I am sharing my thoughts of Goodwill. This is my way of building more peaceful vibrations into our atmosphere as a positive contribution to counter the negativity of crime and road rage etc. I dream of a peaceful city where kindness, helpful compassion for the wellbeing of all with acceptance, love and understanding, plus peaceful harmony and caring for our planet fills the daily TV news Yes we can, why not? Please receive this in the spirit it is given. May you feel good and uplifted with the positive energy of loving thoughts and may the enclosed samples have you feeling some peaceful upliftment.

I am a Seed of Friendship for spreading in the garden of life as a mini Revolution of the Heart for a Better City.....or as new age people would say, this is the New Age of Aquariusa time in history when the planetary influences upon our planet can shift human expressions more and more to our higher nature of loving goodwill, peace and understanding. If you want to make a difference for a Better City, then you can spread lots of good Seeds of Love and Goodwill......, go to; www.goodwillpeople.net

May our children inherit a Friendly Peaceful City.
